**Hong Kong Country Parks  
Education Kit for Secondary Schools**

NSS Biology and Hong Kong Country Parks

Biodiversity in Hong Kong is surprisingly rich! By going to country parks in Hong Kong, different topics in NSS Biology can be taught in an interactive way. With the worksheets in this kit, teachers and students would have another learning experience with authentic example.

This section of the Resource Kit covers the following areas of study and topics:

Biodiversity and Evolution (1)

- Diversity of life forms

Biodiversity and Evolution (2)

- How organisms are classified
- Features of Kingdom Plantae
- Use of key to identify plants

Ecosystems

- Basic features of an ecosystem
- Ecosystems in Hong Kong
- Abiotic factors affecting organisms
- Ecological succession

Conservation

- Reasons to protect biodiversity
- Conservation of species and habitats in Hong Kong

Protecting our natural environment and sustainable development
